This topographic map illustrates the Wałbrzych agglomeration area, featuring a detailed terrain representation with contour lines and elevation data. The map is overlaid with several administrative and environmental boundaries. A red dashed line delineates the municipal boundaries, while a solid red line marks the agglomeration boundary. A pink shaded region indicates the location of the sewage treatment plant and the sewerage network. A blue line represents the Kabiszki Park Landscape Reserve. A yellow hatched area identifies the Natura 2000 'Przełomy pod Kiszem' site. A green hatched area marks the Natura 2000 'Sudety Wałbrzysko-Kamienogorskie' site. A brown hatched area identifies the Natura 2000 'Masz Chelma' site. The map also shows the location of the Wałbrzych City Sewerage Plant, with a red triangle indicating its position and a red line showing the sewerage network. The map includes labels for various locations, including Chwaliszów, Cieszków, Swiebodzice, Struga, Szczawno Zdrój, Lubomierz, Boguszy Gorce, and Wałbrzych. The map is oriented with North at the top.
